DF4700TX	7'	RUB3315	Roll-Up

*Ground to bottom of 48" sign

• Dual Torsion Spring System

• Original Kick Release

DynaFlex™ compact stands feature steel and aluminum construction for durability and a long service life. Dual heavy duty torsion springs provide stability in gusty wind conditions.

The DynaFlex™ series of compact stands display either standard roll-up signs or our popular Fold and Roll™ signs (see page 14) 12" off the ground. Full size DynaFlex™ stands display roll-up signs at a mounting height of 5' to 7' (see chart above) and feature a two stage aluminum mast and RUB3315 sign attachment.

- All DynaFlex™ stands are MUTCD and NCHRP-350 compliant.
- DynaFlex™ compact stands offer two methods of roll-up sign attachment: Screwlock for standard roll-up signs or Stablock for Fold & Roll™ signs, see page 4 for details.
- Heavy duty steel torsion spring system provides a smooth, gliding reaction to wind gusts - no whipping action.
- Compact stands available in two leg lengths. DF3000 series stands have 22" legs that telescope to 38". DF3003 series stands offer 30" leg length that telescopes to 51".
