*Ground to bottom of 48" sign

Stablock™ panel holder option for Fold & Roll™ See pages 14 and 15

DF3000P features the type "P" sign holder for signs equipped with 1" sq. aluminum adapters.

• Dual Torsion Spring System

• Original Kick Release

DynaFlex™ compact stands feature steel and aluminum construction for durability and a long service life. Dual heavy duty torsion springs provide stability in gusty wind conditions.

The DynaFlex™ series of compact stands display either standard roll-up signs or our popular Fold and Roll™ signs (see page 14) 12" off the ground. Full size DynaFlex™ stands feature a two stage aluminum with models designed to display roll-up signs 5' and 7' off the ground and rigid signs 18" off the ground.

- All DynaFlex™ stands are MUTCD and NCHRP-350 compliant.
- DynaFlex™ compact stands offer two methods of roll-up sign attachment: Screwlock for standard roll-up signs or Stablock for Fold & Roll™ signs, see page 4 for details.
- Heavy duty steel torsion spring system provides a smooth, gliding reaction to wind gusts - no whipping action.
- DF3000 series stands have 22" legs that telescope to 38".
