JERSEY BARRIER MOUNT SIGN STAND - MODEL NUMBER JBM1000W

FEATURES:

- ▶ All steel construction.
- ▶ Displays 36" and 48" roll-up sign panels.
- ▶ Stand features ScrewLock™ mechanism for sign panel attachment. Slip fiberglass rib into "J" channel bracket and tighten.
- ▶ Stand mounts to concrete jersey barriers with top width ranging from 4" to 12 1/2".
- ▶ Weight: 21 lbs.

No tools required. Just slide side brace into position and manually tighten set screws with easy-to-use handles.

Barrier mount requires some assembly. Steel tube is mounted underneath stand for packaging (see photo 1). Upon receipt, just unscrew tube, fasten it to top of stand, and insert ScrewLock™ upright mast for immediate use (photos 2 & 3).
