Handle Choices & Features:

Handle Models (Hts. from bottom of sign to ground)

P51A - One Piece Plastic Handle for 6' Height

P52A - Two Piece Plastic Handle For 6' Height

P52AT - Telescopic Plastic Handle For 6' & 7' Heights

P61A - One Piece Plastic Handle For 7' Height

P62A - Two Piece Plastic Handle For 7' Height

Our stop/slow handles are designed for durability and ease of use. Heavy duty ABS plastic tube and socket connectors with locking spring buttons make deployment and take-down a snap. Handles feature flat surfaces front and back which aid the user in determining the sign's orientation, minimizing the amount of time their attention is away from traffic. A thick rounded bottom cap protects the handle from wear while making the unit easy to rotate. One piece, two piece, and telescoping models available.
